## Camping - Shelter

### Safari Canvas Tents

This little tent will stand up to storms! This product is very popular among tour operators, mining companies, events, festivals, and remote campsites, holiday parks, zoos, mining companies, glamping sites, eco-tourism, remote accommodation, scout groups.

This tent has been tested in the very strong wind without guy ropes and the poles didn't break. That's because instead of using hollow fiberglass poles or alloy poles that can easily fracture, these tents are made with solid core spring steel poles. The spring steel is super strong but also very flexible, and has a memory to keep its shape and structure for many years of use.

#### What is special about these tents

**Category 5 compliance** – meets strict quality control standards to offer the highest quality possible.

**Cooler** – the materials used allow hot air to escape, providing more comfort.

**Quieter** – these tents don't rattle and shake when the winds pick up.

**Stronger** – much stronger structure in crosswinds, holding their shape firm and stable.

**Darker** – these tents deliberately let in less light in the early morning hours allowing you to enjoy a more peaceful sleep.

**Water-resistant** – Highly water-resistant materials and treatments are used so these tents perform in the harshest conditions.

	SKU	PRODUCT	SIZE

## Camping - Shelter

### Canvas Gazebo

These Gazebos are a simple and easy to set up portable gazebo, made with a superior strong frame and a quality canvas roof. It will handle stronger winds and last longer than most other gazebos designs. Perfect for use in a campsite, the beach, backyard, a portable carport, weddings and events. Ideal extra shade area for the front of your tent.

Using a rip-stop canvas of this quality means a fabric that has an overall better performance rating than most other fabrics.

High tear strength and abrasion resistance, UV and fade resistance, full water-resistant coating impregnated in the canvas, and a fabric that is cool and breathable in hot conditions.

The pitched centre peak design means effective water runoff compared to other designs, and its versatile size and design means its suitable for a variety of uses and locations. Buy a quality product that will last in harsh climates.

#### What is special about these tents

- Easy to set up, in minutes.
- Full water-resistant coating impregnated in the canvas
- High tear strength and abrasion resistance.
- UV and fade resistance.
- Full water-resistant coating impregnated in the canvas
- Packs into a single canvas bag with poles, pegs, and canvas skin.
- 320g rip-stop poly canvas.

B	1001-00396	Senior Gazebo	3.5m x 3.3m

Check Westernex website for more information and all the features of these Gazebos.

### Canvas Gazebo - Commercial General Purpose

This commercial quality waterproof shelter is popular for events and large gatherings because of the extra-large space and the high quality. This self-supporting commercial steel frame structure design provides a solid peak roof that will withstand harsh weather conditions and strong winds. The side walls are attached and there are 3 x canvas and mesh doors down both sides that can be rolled up as needed, and a canvas and mesh door on both ends.

**Please note:** There is no floor in this tent, however an optional double layer rip-stop mesh groundsheet can be provided on request.

#### Features & Benefits

- Side height – 1.9mtrs
- 400gsm rip-stop safari polycotton canvas.
- Super strong 32mm diameter galvanised steel support frame.
- YKK Zippers.
- Zippered canvas and rip-stop UV stabilised shade cloth mesh doors down both sides.
- A central zippered door at each end.
- The side walls have doors built into them to allow maximum natural light and airflow, whilst keeping the insects out.

## Camping - Snake Protection

### Snake Protective Chaps Expedition

These durable and lightweight gaiters are scientifically proven to protect the wearer from the world's most venomous snakes.

Developed in Australia, home of some of the world's deadliest snakes, SnakeProtex™ has been hugely popular amongst, fieldworkers, campers, hikers, council workers, surveyors, hunters, and home gardeners.

- Adjustable bootstraps allow for a better fit amongst a larger range of different boots and shoes
- Adjustable top leg straps allow for a firmer, closer, and safer fit
- A new press tab installed to clip over the zipper provides better security stopping the zip from moving
- The internal stiffener under the zip keeps the gaiter extended to full height
- Tough outer fabric and inner protective layers also make SPX gaiters great for brush cutting and line trimming!
- We tested our new gaiter with a machine-held hypodermic needle puncture resistance test (ASTM F2878-10) — it achieved 2x the highest rating; far surpassing level 5 (10N), measuring a 20 Newton force to puncture the gaiter.
- Expedition gaiters are 43% lighter and more comfortable than the older version, whilst offering excellent protection.
- Weight: approx. 290g each gaiter, (10.2 ounces each or 1.2lb, 0.9 kg for the pair)
- Dimensions: 44 × 26 × 6 cm

SKU	SIZE
1001-11306-S	Small
1001-11306-M	Medium
