Mapping Jacket

Canvas Mapping Jacket - Red

Made from Hard Wearing Canvas, one size fits all, has back access to store a bundle of Survey Stakes

SKU	SIZE
MJ-OLD STYLE	Large

Mapping Jacket HiViz Orange

Our vests feature a flagging dispensing grommet, lanyard grommets, all-steel snaps, pocket gussets and ten roomy pockets. Pockets include one outside pen/pencil breast pocket, one compass breast pocket, three roomy front pockets with Velcro® closures, two large inside pockets with Velcro® closures, a two-pocket knapsack and a hidden zippered map pocket. Both the knapsack and map pockets feature a heavy, 1000 denier Cordura® nylon reinforcement layer sewn at the bottom. The polyester oxford is stronger, more durable, and more breathable than acrylic vests.

Metal Detectors

Garrett AT Pro International

Waterproof to 10ft (3m). Ideal for use in both fresh and saltwater, AT Pro International will ground balance to saltwater. Highly Recommended for: Coin Hunting, Jewellery Hunting, Relic Hunting, Cache Hunting, Prospecting, Competition Events, Beach/Fresh Water Hunting. This all-terrain detector offers new and exclusive Garrett technology that makes it ideal for hunting coins, relics, caches, jewellery, and even gold nuggets. Select from either Standard or Professional search modes with enhanced audio features.

- Pro Mode Audio™: Proportional Audio and Tone Roll Audio™ features allow the user to hear characteristics of a target as they would in a True All-Metal Mode.
- High-Res Iron Discrimination™: Use touch-pads to set iron discrimination in one of 40 levels for precise ability to separate good targets from trash.
- Digital Target ID: 0 to 99 Target ID scale offers increased ability to distinguish one target's conductivity from another.
- Iron Audio™: Allows the user to hear discriminated iron and to alter the detector's mid-tone signal's range
- Fast Recovery Speed: Allows greater ability to pick out good targets amongst trash.
- All Terrain Versatility: Weatherproof housing designed for dusty, humid or wet environments; unit can be submerged to a maximum 10-foot depth.
- 15 kHz frequency: improved detection of small targets, gold nuggets, jewellery.
- Ground Balance: automatic and manually adjustable for improved performance.
- Graphic Target Analyzer™ (GTA): identifies target's conductivity.
- Continuous Coin Depth Indicator: to determine target depth.
- Battery Condition Indicator: shows battery life continually.

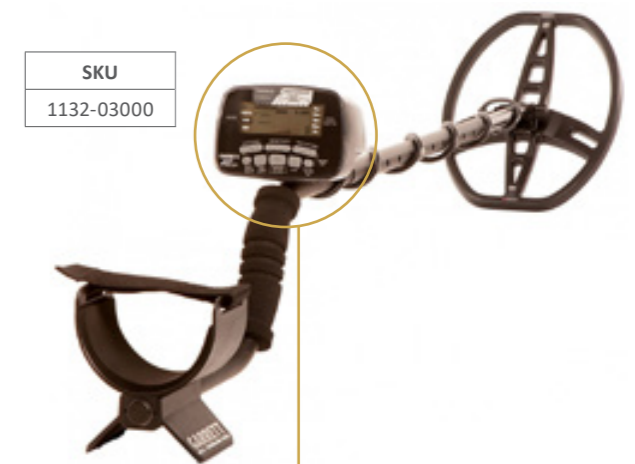

Included:

- AT Pro International detector
- 8.5" x 11" PROformance™ DD submersible search-coil
- Master Sound Headphones with watertight connector

Garrett Edge Digger

This unique trowel shaped digger has a serrated edge for improve digging capabilities. Rugged and reliable, this digger will help expose your treasure targets quickly. Ideal for use in forests, streams, fields and beaches.

- Made from Strong Carbon Steel
- Serrated edge blade is rugged enough to chop through small roots
- Trowel shape perfect for digging in all ground types
- Non slip blade guard
- Comfortable handle grip
- Handy pouch with belt loop for easy carry

Metal Detectors

AT MAX International

- Built-in Z-Lynk™ Wireless Technology - Cut the cord! Integrated circuitry transmits audio to your wireless headphones. Six times faster than Bluetooth speed! Auto pairing. No cables, and no interference from other wireless devices.
- Maximum Detection Depth - Increased transmit power and enhanced electronics provides AT Max with significant depth increase.
- True All Metal Mode - Detects all types of metal and provides the greatest possible detection depth and sensitivity.
- Back-light: Illuminates LCD screen for improved visibility in low-light situations.
- Optimized Frequency - The AT Max's 13.6 kHz operating frequency provides excellent detection on a wide range of targets—including silver coins, gold jewellery, and brass relics.
- High Resolution Ground Balance - Automatic and manually adjustable for improved performance. Includes 175 points of Ground Balance resolution, allowing the AT Max to handle both conductive soils (such as saltwater beaches) and highly mineralised ground.
- Automatic Ground Balance Window™ - Garrett Exclusive feature will simultaneously ground balance to a range of values to help overcome localized ground variations. By reducing subtle ground responses, the Automatic Ground Balance Window smooths detector audio and allows the user to hear faint targets.

- Larger Display Numbers: Digital Target ID number, Iron Discrim number, etc.
- More Controls: All easily accessible with a single finger as you search.

Included:

- AT MAX International detector.
- 8.5" x 11" PROformance™ DD submersible search-coil.
- MS-3 Wireless Headphones.

Garrett THD Hand-Held Detector

The THD is the most rugged, compact metal detector on the market. With a highly-sensitive 360° detection area and a silent vibrating alarm indicator, the THD is the perfect metal detector for all law enforcement operations. It is also particularly effective for use in schools, bars and clubs, and for corporate security.

- Easy ON / OFF battery cover.
- 9V battery (included) operation.
- Ballistic weave holster (included): mounts easily on belt or in car.

Garrett ATX Deep-seeker Package

The Garrett ATX is the ultimate multi-frequency detector for all terrains and extreme conditions (highly mineralised ground, saltwater, etc.). It features advanced pulse induction technology, a durable design that meets military specifications, and a new DD coil design for extreme and uniform sensitivity - from tiny gold pieces to larger gold nuggets. The ATX is ideal for gold prospecting, relic hunting in highly mineralised soils, shallow water coin and jewellery hunting, and even for industrial applications. The ATX includes Motion and Non-Motion Modes, Advanced Ground Balance, LED signal strength indicator, Iron Check, and much more.

- Maximum Detection on all targets at the same time. No need to switch modes to enhance detection of one target while degrading another.
- Advanced Ground Balance: has wide range to ground balance from heavily mineralised ground (ironstone) to saltwater without switching to special modes.
- Exclusive Design Mono Search-coil: enhances detection of small items without having to slow down the scanning speed of the coil.
- Motion and Non-Motion Modes: provides optimum performance based on your hunting preference and

Pro-Pointer® II

With a new lost pin-pointer alarm, increased durability and sensitivity, Garrett's new Pro-Pointer II has everything you've come to trust from the original... and more!

- Patented proportional audio/vibration pulse indicates targets.
- Pinpoint tip detection
- 360° side scan detection area
- LED light for low light uses
- Patented scraping blade to sift through the soil to speed recovery.
- Automatic tuning
- Large power button is easy to operate even with gloves.
- Meets IEC 60529 IP 66 standards for dust and water

- conditions.
- Fully Collapsible: the ATX can be operated with its stem fully extended, fully collapsed, or anywhere in between.
- Quick Iron Check feature and adjustable Discrimination.

Included:

- 20" (50cm) Deep-seeker mono coil.
- 11"x13" Mono closed search-coil.
- Garrett Master Sound Headphones with Watertight Connector.
- Military-grade Garrett hard case
- 15" x 20" Closed coil cover.
- Garrett Detector Sling.
- Manual.
- Battery charger.
- AA alkaline and rechargeable batteries
- Soft storage/travel case.

- protection; entire unit can be rinsed/cleaned under water.
- Twice the battery life of other pin-pointers with LED lights.
- 9 volt battery included.
- Woven belt holster included.
